Approved For Release 2003/05/14 : CIA-RDP78B05171A000600020017-4

NPIC/TSSG/RED-1966-69

15 December 1969

MEMORANDUM TO: [ ] C/TSSG/SC&PS

THROUGH : Chief, Research & Engineering Division, TSSG

SUBJECT : Approval of Optical Design Report on the Advanced  
Stereo Rhomboid, Model II, Prototype (Contract No.  
[ ])

1. One of the requirements of the contract with [ ] for the development of a prototype Advanced Stereo Rhomboid, Model II, is the submission of a report describing the redesign of the objective lenses of the instrument. On 4 November 1969, [ ] consultant, met with [ ] and Agency representatives to review the technical data to be included in this report. [ ] orally stated that, although the data would not reveal all possible problems that could occur in the projected design, no major problem was evident and he could foresee no reason for not proceeding with the development. [ ] was to submit a written report verifying these oral statements. This report has been received, and states that "the system is probably good enough."

2. The required Optical Redesign Report was submitted by [ ] and received 17 November 1969. This report was reviewed and judged to be satisfactory. On 5 December 1969 [ ] was given verbal authorization by telephone to proceed with fabrication of the prototype instrument.

3. It is requested that you prepare the necessary documentation to formally authorize [ ] to proceed with fabrication of the prototype instrument.
